Attorney: Daven Persaud**

Tim Arch, Attorney, is here to represent to represent the applicant. Mr. Arch states that they would like to construct an addition to an existing single family home. Mr. Arch states that Mr. Soni had been in front of the Board previously and put on testimony. It is his understanding that the Board had some concerns with one of the variances being requested. Mr. Soni is getting older and his son, wife and their children will be moving in to help take care of him. Mr. Soni's son is on the meeting. He works from home which is convenient for his father, but he does require space to work.

The request as he understands it is the request for lot coverage. Mr. Arch states that the original plans that were submitted proposed 23.9% building coverage, they went back to the architect and got it down to 22%. Mr. Arch understands the issue but would like to come to a reasonable compromise in the coverage number. Mr. Arch shares his screen with the Board; he believes 21.5% is a good compromise. He shows the left side elevation of the architectural plans. The front of the house facing the street is all the existing home; you would not see it from the street. It will not create any bulk or mass that anyone could see.

A-1, color Google picture of the home as it is now and marked out the addition with the setback. It is in line with the next door neighbor to the right. It actually sticks out more than the their new addition would be. The other neighbor two doors down has a rear addition that is larger than both of the homes. Mr. Arch shows several resolutions that the Board recently approved showing up to an approval for 26%. He goes over the resolutions and shows the numbers.

Mr. Misrahi states that there are several items that could be made smaller in size. One of the reasons that is leading to the staff's opinions in because of the floor plan. It shows a family room on the ground floor, a family room on the second floor, the home office is quite large and a large exercise room. It's their opinion that some of these can be reduced. Chairman Cahill states that he is comfortable with 20.5% or 21%. Mr. Arch states that they will be comfortable with 21%. Mr. Misrahi states that he would like to see the plans first. They will come back on November 13, 2026 for a vote. No further notice required.

Larry Sachs, Attorney, is here to represent the applicant. Mr. Sachs states that they are here for 605 Fairview Avenue. The applicant would like to construct a second story addition with a covered front porch. They noticed for three (3) variances but he believes that two of them will be eliminated based upon recommendations from the staff. They will remove the fence out of the right-of-way and they will pave the driveway the first 20 feet.

Kermit Hughes, Architect, is sworn in to testify. Mr. Hughes stares his screen with the Board; color rendering of the home showing the front porch. There will be no change to the existing footprint. The only change will be the second floor and putting a roof over the front porch. The home will have three (3) bedrooms upstairs, one downstairs. Mr. Sachs states that the variance they are requesting is for the porch only, not the addition. They will be conforming to all other requirements. Mr. Misrahi states that the required setback is 25 feet, they are proposing 15 feet, which the porch is already existing.

Chairman Cahill asks the Board if there are any other questions or comments; none. Public portion open/closed.
